BATTLES OF THE RIVER PLATE

Congratulations to the winners of the bronze medal matches, **Switzerland** (Open) **Germany** (Mixed) **USA** (Women) and **France** (Seniors).

Meanwhile, we are enjoying some of the most exciting finals in the history of world championship play. In the Open **Italy** made a magnificent start against, but a stunning counterattack saw **Poland** take the third session 62-0 to reduce their deficit to 2 IMPs.

In the Mixed, **Poland** started strongly but were stunned by a tremendous third session comeback by **China** who lead by 28 IMPs.

In the Women's event **Türkiye** led after two sessions, but **Sweden** hit back to lead by 7 IMPs.

USA started like an express train, but **India** fought back to be almost level pegging before a strong third session gave the Americans a significant 39 IMP advantage.

In the Pablo Lambardi Transnational

Open Teams Final A, **Pero Bueno** has the lead, followed by **Shourie** and **Israel**. **China Open** lead Final B and **Bortoletti** Final C. **Shun Sum Alan Sze** and **Wai -Lap Abby Chiu**, representing **Hong Kong, China** lead the Open/Seniors Pairs Final, with **England**'s second placed **Malcolm Pryor** and **Ed Scerri** the leading Senior pair.

In the Women's Pairs Final, Italy's Claudia Pomares Y de Morant and Cristina Golin hold the overnight lead.

In the Mixed Pairs Final Türkiye's Suleyman Kolata and Hatice Özgur have a significant lead.

In the combined Pairs B Final South Africa's Craig Gower and Diana Rosslee were the convincing winners - congratulations!

Allow me to point you in the direction of **Bridge Unleashed: Journey into the World of Bridge**, Tracey Bauer's YouTube channel dedicated to the game. It features interviews with top players and personalities, as well as historical insights and lessons for beginners. Do look – and don't forget to subscribe to the channel!

Did it really happen?

At the start of the finals of the pairs, the English-speaking director announced "Start playing two boards".

A few minutes later there was a director call. When the director arrived, four local players had 13 cards in each hand and two rows of bids were neatly laid out on the bidding tray. The players had diligently followed the director's instructions and wanted to know if they had to play both boards at the same time as well.

One thing we do no for sure is that at another table, having completed boards 1 & 2 (both sedate 1NT contracts) the players lost no time in tackling Board 3 and rapidly reached 3NT before an eagle-eyed Director pointed out the error of their ways.

We understand that if any of the matches are tied the teams will face a play off at mini-table tennis. We happened to be on hand when the equipment was being test(a)ed.

Many bridge players have hidden talents. One of Simon's is the ability to keep his balls in the air for long periods of time. (I'm still hoping to discover a hidden talent.)

EVERY SECOND COUNTS

Mark Horton

At one time, it was normal practice for the VuGraph commentators to be given a set of the deals just before the start of play. Edgar Kaplan would always look at the last two deals to see if they promised anything in the way of a dramatic finish should any of the matches be close. He would have enjoyed the last two deals of the final session of the semifinals:

Board 31. Dealer South. N/S Vul.

7% is clearly a good grand slam, but is doomed by the 4-1 spade break and the location of the ♣K. Even 6♥ will fail after a club lead by North.

In the Open Poland and Switzerland were both in 7%(as were USA and France in the Seniors). Italy tried a doomed 6NT while Argentina stopped in $4 \circ$.

Italy's making 6% in the Mixed was a winner when Poland essayed 7♥, and Germany picked up a swing for making 6 % while China rested in game.

In the Women's series China stopped in 6♥, Türkiye bid 7% – but they were both one down.

Board 32. Dealer West. E/W Vul.

This is an almost laydown 64 (and 74 can be made with a winning view in the trump suit.

In the Open Poland and Switzerland both bid 64 but Argentina gained when Italy stopped in 3NT.

Türkiye did the same in the Women's event, China being the ones to play in 3NT.

In the Seniors USA and France both stopped in 3NT (had France bid 6♣ they would have won.)

In the Mixed Germany and China rested in 3NT. Poland bid 6.

This was the Italian auction (I trust I have interpreted everything correctly):

North had taken some time before bidding 3NT, and the Director was called. (Remember you must call from the correct side of the screen in a hesitation situation!)

It was established that the time taken was 26 seconds.

A poll was conducted and as a result the contract was returned to 3NT, enough for Poland to advance to the final.

I suspect that many players will not be aware that although thinking is allowed, once you take more than 20 seconds before making a bid, you run the risk of giving unauthorised information to your partner.

One more thing, our Directors are the best in the world, so despite any disappoint you may suffer, they always deserve your respect.

OPEN TEAMS SF – 6

Jos Jacobs

With one segment of 16 boards to play, both semifinals were still looking everybody's game. Italy were 23 IMPs up against the host country and Switzerland were only 17 down against Poland. The best that the neutral spectators could hope for was a set of boards as interesting as the previous one had been...

After a routine warming-up game (maybe unnecessary after the 32 boards already played) the second board once again showed the effect of a preempt. This time, there was only a part score at stake but at the current state of the match, every IMP would count and so did these six to Switzerland: their deficit now was just 11, one swing, so to speak.

And yes: right on the subsequent deal there indeed was a double-digit swing already. In the Open Room, they produced an innocent enough auction with a vicious ending.

For North, the vulnerability must have been an extra consideration to convert partner's double. Also, the N/S hands did not look as if they were fitting very well. So, North passed and hit upon the best lead: the \Diamond J. This ran to declarer's ace and Klukowski's next

move was an unlucky one: a low trump to dummy's jack. South won perforce and three rounds of hearts came next. Declarer ruffed the 3rd heart and played a club to dummy's king and South's ace. Back came a club, the \$10 losing to the jack. North exited in clubs, but declarer still had to give up two more diamond tricks before he could catch North in a trump endplay for one more loser: down three, a shock result on a part score deal: Poland +800.

In the Closed Room, the Swiss N/S missed the same chance, in rather uncharacteristic fashion, one might say.

Closed Room

Just made, Switzerland +140 but 12 IMPs to Poland. In the other semifinal, we saw a far less spectacular swing:

Open Room

West	North	East	South
Versace	Bianchedi	Sementa	Ag Madala
			$1 \heartsuit$
1 ♠	2 %	2 ^	Dble
Pass	2NT	Pass	3♡

When Versace led a low spade away from his ace, declarer emerged with an easy overtrick. Argentina +170.

In the other room, the Italians showed their natural optimism, I would say:

Closed Room

West	North	East	South
Rizzo	Di Franco	Lucena	Manno
			1 %
1 ^	1NT	Pass	3NT
All Pass			

Di Franco might even have made his contract. A spade was led to West's ace and a low spade came back on which Di Franco played the $\clubsuit 10$. East won the jack and continued the suit, declarer winning the king. From there, the defenders would have four spade tricks and the $\lozenge A$. If declarer ducks East's $\spadesuit 9$, a club shift will sink 3NT after all so no harm done at this point. No, declarer had missed his possible chance at trick two. Had he played low to West's spade return, his $\spadesuit K10$ would have brought him his contract – bar the immediate club shift at trick 3, that is, of course. As it happened, the contract still went one down for +50 to Argentina and 6 IMPs to them to reduce their deficit to 17.

Two boards later, more IMPs changed hands:

On the lead of a top spade, followed by a trump shift, declarer made an overtrick when the defence did not attack diamonds in time. That was +170 to Switzerland.

In the other room, the Poles in fact reached that heart game:

Closed Room

West	North	East	South
Gawel	Drijver	Jagniewski	Brink
_	1 🛧	Pass	Pass
2♡	Pass	4♡	All Pass

The defence was made to look easy enough. North led a top spade and continued a low spade, ruffed by South. With only two top clubs available for discards of losers, declarer still had one loser too many left by the end of play. One down, Switzerland another +50 and 6 more IMPs to them. Their margin now was back to the initial -17 again.

In the Argentina v Italy match, there also was a swing, but of a different nature:

Open Room

West	North	East	South
Versace	Bianchedi	Sementa	Ag Madala
	1 ♠	Pass	1NT
Pass	2 ♠	Pass	Pass
Dble	Pass	3♦	All Pass

Once Versace passed over 1NT, the E/W heart fit was out of the picture. After his eventual double, the Italians languished in $3\diamondsuit$. Down two was the outcome, Argentina +100.

Closed Room

West	North	East	South
Rizzo	Di Franco	Lucena	Manno
_	1 ♠	Pass	1NT
Pass	2 4	All Pass	

In the Closed Room, the Argentineans did nothing. That was worth +200 when 2♠ proved as unplayable as anything else. Argentina got 7 IMPs for their combined efforts.

On the next deal, the Swiss were unlucky:

Board 22. Dealer East E/W Vul.

Open Room

West	North	East	South
Klukowski	Buras	Kalita	Nowak
		1	Pass
1 ^	3♣	4 ^	All Pass

Would there be an alternative for North, something better than a club lead? Buras did not think so and that was worth +100. Please note that every relevant card

is well placed for the defence.

Gawel	Drijver	Jagniewski	Brink

In spite of Gawel's initial transfer response, he still became the declarer in $4 \spadesuit$. When the Swiss North indeed found an alternative for a club lead, namely a top diamond, the game contract came home for another +620 and 12 IMPs to Poland to increase their lead to 29.

On the next deal, it was 3NT for E/W off the spade suit. In the Argentina v. Italy match, neither East had made any noises so both Wests led the logical $\heartsuit Q$. That brought the declarers into the overtricks region, Argentina scoring 1 IMP on the board.

Board 23. Dealer South All Vul.

In the other match, it was quite a different story:

Open Room

1			
West	North	East	South
Klukowski	Buras	Kalita	Nowak
_	_		1♣
Pass	1NT*	2 ♣	3NT
Dble	All Pass		

Over North's forcing 1NT, Kalita as East seized his chance. When Klukowski doubled the final contract, Kalita had a difficult problem which he failed to solve. A spade lead would have been much better than his actual heart lead. Could or should he have known? Anyway, one overtrick and +950 to Poland. Time seemed to be running out a little for the Swiss.

In the Closed Room, the Swiss N/S avoided the for them hopeless game contract:

Closed Room

West	North	East	South
Gawel	Drijver	Jagniewski	Brink
	_	_	1♣
Pass	$1 \diamondsuit$	1 🛧	Dble
Rdbl*	Pass	Pass	$2\Diamond$
All Pass			

The redouble showed a spade top honour so N/S knew they did not have a good spade stopper. Well judged, well bid for a loss of a further 13 IMPs. Two Diamonds scored only +130, of course.

Board 25. Dealer North E/W Vul.

Open Room

West	North	East	South
Klukowski	Buras	Kalita	Nowak
	2◊*	Pass	2NT*
Pass	3♣*	Pass	3♦

North's Multi soon saw the Poles sailing into the proper contract. West (!) led a club and, seeing the danger of a possible ruff, declarer played ♥A and another, hoping for the best. His hopes were more than fulfilled when East shifted to a diamond rather than a spade. Declarer, of course, could not be sure that he was already out of danger. Poland +450.

Closed Room

West	North	East	South
Gawel	Drijver	Jagniewski	Brink

Here, too, the heart game was reached and here too, a club was led. It was East's lead at this table, but the singleton danger was as imminent as at the other

table. So, declarer won and played $\heartsuit A$ and another and now, East shifted to a low spade upon winning his $\heartsuit K$. West won the $\spadesuit Q$ but with a club ruff no longer possible, the contract was made after all. That was +420 to Switzerland but 1 more IMP to Poland.

Open Room

West	North	East	South
Versace	Bianchedi	Sementa	Ag Madala
_	3♡	Pass	4♡
Pass	Pass	Dble	All Pass

Sementa's final double certainly would score high on my perpetual list of imaginative doubles but look at its disastrous effect this time. East led his club, of course. Declarer won his king and put his money on a diamond finesse, intending to get rid of a few spade losers quickly. A diamond to dummy's jack won the trick and so did the $\Diamond A$ continuation. West, however, ruffed next diamond, but declarer, sticking to his plan, threw a spade loser, thus suddenly opening the way for himself to go down. West returned a club, East ruffed and underled his $\triangle A$ for another club ruff. That was a surprise one down, Italy +100.

Closed Room

West	North	East	South
Rizzo	Di Franco	Lucena	Manno
	2 %	2 ♠	Dble
3 ♠	4 %	All Pass	

No nonsense at the other table. A club lead by East, won in hand and followed by the $\heartsuit Q$. When next the $\heartsuit A$ brought down the king, declarer had two overtricks. Italy +480 and 11 IMPs from nowhere to lead by 20 again.

We were approaching the end of the match when this one hit the deck:

Board 28. Dealer West N/S Vul.

A normal enough $4 \spadesuit$ at all tables. Only Versace for Italy and Klukowski for Switzerland managed to make 10 tricks when they both led the $\lozenge A$ and low to dummy's eight, bringing down the $\lozenge K$. That was 10 IMPs to both Switzerland and Italy.

On the penultimate deal, both Switzerland and Poland went down in a good grand slam.

Board 31. Dealer South N/S Vul.

Seven Hearts is odds-on but not on this layout.

In our other match, they had...other ideas. The Italian E/W reached 6NT which went down two and the Argentineans managed to reach 4%. Their twelve tricks gained them a slightly undeserved 11 IMPs. We will keep the rather uninstructive bidding sequences away from you...

Board 32. Dealer West E/W Vul.

No problems for three of the N /S pairs involved. The only exception this time was the Italian N/S pair that ended up in 3NT. So, the Argentineans gained another 10 IMPs, winning the set at the post but... by only 3 IMPs, by no means enough to make up for their earlier deficit.

The results:

Poland v. Switzerland 177-147 Argentina v Italy 172-192

It would be a European final in a different part of the world.

Having attempted to hit a six, declarer looked sure to be caught on the boundary, but when North led the $\clubsuit 10$ he was given a temporary reprieve.

It appeared that declarer would need to dispose of three of his clubs. In order to do that he would need to score four diamonds and two hearts.

He took the trump lead in dummy, came to hand with a spade and played a heart to the queen. When that passed off peacefully he played a diamond to the ace and took the diamond finesse. Alas, North's required three diamonds did not include the queen and South won and two rounds of clubs meant two down, -200.

Amazingly there was a way to arrive at 12 tricks!

Declarer knows North must hold the $\heartsuit K$ and cannot have the $\clubsuit AK$.

Having taken the spade lead in dummy declarer must

cash the $\triangle Q$ and then run the $\lozenge J$. Then a diamond to the ace is followed by a spade to dummy's seven allowing a club to be discarded on the $\lozenge K$. Declarer ruffs a diamond and plays another trump to reach this position:

Board 4. Dealer West. All Vul.

When declarer cashes the $\clubsuit J$ North cannot afford to part with a heart so must pitch a club. Declarer throws a club and South a heart. Now declarer plays the $\heartsuit 10$. If North has pitched the $\clubsuit K$ it will be enough to win with the $\heartsuit Q$ cash the $\heartsuit A$ and play a club towards the queen, but if North has pitched the $\clubsuit 8$ and now follows with the $\heartsuit 8$ declarer must let it run and then exit with a club. If North is allowed to win he is endplayed to lead into dummy's heart tenace, while if South overtakes declarer scores the last two tricks with the $\clubsuit Q 10$.

Its also worth noting that were declarer to play a club from dummy at trick two South would need to avoid winning with the ace and playing a second spade as then declarer would (by guessing diamonds) be able to squeeze North in hearts and clubs.

Al Hollander very kindly emailed me with his explanation of this auction. North's $2\clubsuit$ was a gameforcing relay and $2\heartsuit$ showed four cards in the other major. $2\spadesuit$ was a relay, announcing a heart fit, and $3\diamondsuit$ showed 4-5-2-2 shape. $3\heartsuit$ asked for the range and 3NT announced 14-16. $4\clubsuit$ was a cue-bid and $4\heartsuit$ denied a diamond control. $5\clubsuit$ showed a second control in clubs, also a diamond control since partner had denied one. Manno's $5\diamondsuit$ showed the \diamondsuit Q, having already denied anything better. Al describes $5\heartsuit$ as 'run out of steam'. What a wonderful account he painted for us. It is much appreciated!

The $\lozenge J$ was led again, and the Italians' auction was proved accurate. It was a well-deserved gain of 11 IMPs.

East then returned the $\clubsuit 8$. When a heart to the 10 lost the jack, declarer won the next club and led a third heart to West's king. There was no entry to dummy at this stage, Versace returned the $\diamondsuit 7$ and Strzemecki rose with dummy's $\diamondsuit K$. (He knew from the 10-13 1NT that East held the $\diamondsuit A$ -J.) Sementa had to win and resurrect the dummy, either with a spade or a lead from his $\diamondsuit J$ -9. It was a hard-earned +600.

West's $3\clubsuit$ was Ghestem, and it was followed by two or three bids before the Director was called. Apparently, North had not been informed about the $3\clubsuit$ bid. The auction was rolled back to $3\clubsuit$, and he then doubled. East chose $3\diamondsuit$ and I can only assume that Strzemecki thought his pass would then be forcing. (Why not bid $3\heartsuit$, anyway?) The diamond part-score went 200 down.

Ghestem again, but the subsequent Italian bidding was accurate. Manno ruffed the second spade, led the $\clubsuit 7$ to the ace, returned to the $\diamondsuit A$ and ruffed a diamond. After ruffing a spade in his hand, he ruffed his last diamond with the jack. A spade ruff with the ace then gave him +620, even though he had run out of trumps before East. It was 9 IMPs to Italy, who led 27-0.

You like high-level competitive auctions: spades against hearts? So do I!

West's 5% would have been two down on a diamond lead, one down on a spade lead. We wondered if South should have passed the decision to partner, after showing his hand so well with the $4\diamondsuit$ bid. $5\spadesuit$ had to lose to the three aces and was one down.

Wojciech Gawel's spirited 5% more or less forced North to bid $5\spadesuit$, and it was another push board.

On Board 12 Poland retried another 9 IMPs, beating a 24-point vulnerable 3NT by two and making 1NT+2 at the other table. However, there was still a big firework to come!

We have seen some players rebidding 3% on North hands like that. After rebidding only 2%, with a slamtry from South, North's sign-off seems an underevaluation.

Di Franco's 1 \clubsuit showed 2+ clubs and 1 \diamondsuit was a transfer. The 1 \heartsuit rebid showed around 12-14/15 with a 3-fit, or 11-13 with a 4-fit. Al Hollander concluded that 4 \clubsuit might have been a transfer splinter bid (4 \diamondsuit would have been a re-transfer). North could see a useful hand before him and headed to the slam. +980 was worth 11 IMPs, and Italy took the set by 40-22.

May I end by saying that the bulletins have all looked splendid, as world-class as the players we have enjoyed watching. Many thanks to Francesca Canali, the Layout Editor, who completes a difficult jigsaw on page after page. Also, how good have the colour photos been? The other writers will surely agree with me how rewarding it is to have our efforts so splendidly decorated.

BRIEF ENCOUNTER

1NT Semi forcing

Looking at the system card, a rebid of $2\clubsuit$ by North would have been natural or game forcing. I'll have to leave you to figure out the meaning of what followed as the clock is ticking.

East led the \P Q and declarer won, cashed the \P K and played a spade to the jack to lose 14 IMPs.

There was no time to discover the exact meaning of the bids after $2\diamondsuit$ but they were designed to discover partner's shape and range.

East led the $\clubsuit 3$ and declarer won with the $\clubsuit 8$ and played a heart for the jack and ace. He won the heart return with dummy's king, pitching the $\clubsuit 5$, cashed the $\spadesuit 10$ and then played on diamonds, West scoring a third-round ruff, so +650.

The opening lead was the $\heartsuit Q$ for the king and ace and West return of the $\heartsuit 6$ was taken by dummy's jack. A spade to the nine and then the $\spadesuit Q$ were followed by a club to the queen. When that worked declarer cashed the $\clubsuit A$, crossed to the $\spadesuit A$, cashed the $\spadesuit K$ and claimed – he knew East was about to be squeezed in the minors. That was +1430 and 13 IMPs for Italy.
